SUBJECT INDEX TO VOLUME 7

Capacitor motors, analysis of, 193
Converter controlled dc series motor, 261,429

DC machines, parameter measurement, 179
DC motor, chopper driven, 125,155, 483,497
DC motor, regenerative braking in chopper driven, 125,279
DC series motor, chopper driven, regenerative braking, 279
DC series motor, converter controlled, 261

Eddy currents in permanent magnet synchronous motors, 115
Eddy currents in thick plates, 57

Hysteresis machines, 325,517
Hysteresis motor, analysis of, 203, 325

Induction machines, composite rotor, 331
Induction machine, dynamics, 27,305, 339,415
Induction motor analysis, 357,415
Induction motor, reliability in design, 447
Induction motor, stability, 1
Induction motor, transient analysis, 305,339,415
Induction motors, two-speed, 381,397

Linear induction motors, end effects, 47
Linear induction motors, inverter fed, 35
Linear reluctance motor, normal force in, 143

Reactors, forces in, 73

Salient-pole machine, impedance calculation, 231
Solid rotor induction motors, 357
Solid rotor iron-free machines, modeling of, 243
Stepping motors, hybrid, 103
Superconducting ac generator, losses in, 171
Synchronous generator, asynchronized, 9
Synchronous generator, dwr, stability, 85
Synchronous generator, excitation controller, 463
Synchronous generators, saturation in, 215,369
Synchronous machine, salient pole, asynchronous operation, 231
Synchronous motor, permanent magnet, 115
Synchronous motor, self-controlled, 473

Transformers, forces in, 73
Turboalternators, saturation in, 215
